Assignment Statement

Assignment 1 — Your Personal CV Page

Build a single-page personal CV/resume as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS.

Requirements:

- A header with your name, tagline , and photo
- An "About Me" section
- An "Education" section
- A "Skills" section
- A "Contact" section with mail to link
- Semantic HTML5 elements (header, section, article, footer)

External CSS file (styles.css)

Index.html

```
<!doctype html>
<html lang="en">
  <head>
    <link rel="stylesheet" href="style.css" />
    <meta charset="UTF-8" />
    <meta name="viewport" content="width=device-width, initial-scale=1.0" />
    <title>Muhammad Ahad Ata - CV</title>
  </head>

  <body>
    <header id="header">
      <h1 id="name">Muhammad Ahad Ata</h1>
      <p id="location">Lahore, Pakistan</p>

      <div id="contact-info">
        <a id="email" href="mailto:muhammad.ahadata@gmail.com"> E-mail </a>

        <span id="phone">+92 328 4455102</span>

        <a id="linkedin" href="https://www.linkedin.com/in/ahad-ata-12a538421/"
          >LinkedIn</a>
        >
        <a id="github" href="https://github.com/ahad413">GitHub</a>
      </div>
    </header>

About

Aspiring software developer with strong foundation in backend development, database design, and problem solving. Passionate about building secure, scalable systems and exploring cybersecurity applications. Seeking an internship to gain hands-on industry experience, contribute to real-world projects, and develop expertise in both software development and security domains.

Education

BS Computer Science

COMSATS University Islamabad, Lahore Campus

2024 – 2028 | In Progress

Currently: 5th Semester

Relevant Coursework

- Object-Oriented Programming
- Database Systems
- Computer Networks
- Operating Systems

- Data Structures & Algorithms

FSc Pre-Engineering

Forman Christian College, Lahore

2022 – 2024 | 82%

Matriculation (Science)

Lahore Model School, Lahore

2020 – 2022 | 94%

Technical Skills

Networking

CCNA-level knowledge, IP addressing, subnetting, OSI model,

Cybersecurity

Cyber Job Simulation experience by tackling a real world problem

Operating Systems

Linux (Kali, Ubuntu), Windows, VMware virtualization.

Tools & Platforms

Git, GitHub, VMware Workstation, VS Code, OverTheWire Bandit, IntelliJ ideas, Cisco Packet Tracer, Wireshark.

Backend Development

Proven experience building REST APIs with FastAPI and database integration.

Databases Design

Hands-on experience with relational databases and query optimization.

Programming Languages

Python, Java, SQL, Bash, Go.

Certifications

CCNA – Cisco Networking Academy

2026 | Score: 84%

IP addressing, subnetting, TCP/IP, OSI model, routing, switching, VLANs, and basic network security.

Deloitte Cyber Job Simulation – Deloitte

2026

Real world cyber security problem solving.

Projects

Police Station Management System

Technologies: Python, MySQL, Streamlit

- Built a management system for FIRs, staff, funds, and cases.
- Used parameterized queries for database security.
- Designed normalized relational database schema.
- Used MySQL views, stored procedures, and triggers.
- Used environment variables for database credentials.
- Deployed on Streamlit Cloud.

Ethical Hacking Guidance Expert System

Technologies: Python

- Built a rule-based expert system with 60 IF-THEN rules across five ethical hacking phases.
- Implemented forward chaining inference engine with certainty factor scoring and resolution.
- Developed explainable reasoning module with stepwise Streamlit web interface.

Current Learning & Active Progress

- Cybersecurity & CTF
- Go fundamentals and REST API development
- YAML and configuration validation
- Cloud-Init
- Butane
- Ignition
- Cloud-Init → Butane mapping logic

Key Strengths

- Networking Foundation
- Problem Solving
- Public Accountability
- Backend Development
- Self-Driven Learning
- Infrastructure Knowledge
- Infrastructure Curiosity

Additional Information

Languages: English, Urdu

Location: Lahore, Pakistan

Availability: Immediately available for on-site or remote internships in Lahore.

Interests

- Networking
- Cyber Security
- Ethical Hacking
- SOC Analysis
- CNCF Projects
- Network Security
